ORGANIZATION

Organization of Participants

There are two types of grouping: **coexistence groups** and **working groups**.

Coexistence groups: students meet with other boys and girls of the same age in groups of 12 to 15 participants and have a monitor or "counselor" assigned. They coincide in common spaces, such as the dining room, and in group activities and meet with their monitor to discuss any matter related to activities, stay or coexistence.

Work groups: Created according to the interests of the students, and will work together to develop the main activities. The groups are boys and girls and are created by age.

Program organization and development

The **Arts Toledo Campus** develops a bilingual program in Spanish and English, with multidisciplinary activities based on the artistic inclinations and concerns of the participants. At the time of registration, a questionnaire is made to the students about their interests and preferences, which will serve to adapt the design of the different programs to the characteristics of each student and group, resulting in the organization of activities. In this way the student creates the itinerary of his program choosing a main activity among the four artistic disciplines, and two complementary activities.

ACTIVITIES

Main activities

Entertaining and interactive, but with a technical approach and serious work plan, they are held every day from 10:00 a.m. to 2:00 p.m., with several breaks. The first few days will be dedicated to the development of ideas that will culminate in the creation of a final common project. The student must choose one of the four programs: **Music, Dance, Dramatic Art or Visual and Visual Arts.**

Music Program:

Aims to boost your creativity and develop the musical skills that allow you to generate a quality musical production.

Through active listening, you will learn to focus and build your musical thinking intelligently; To explore and to experiment with the musical instruments the reading of a sonorous language and expressive changing, to sharpen the ear to the ambient sounds and the soundscapes that are generated there, to investigate in the technique and the practice of procedures for the development of the composition; Review and perfect your musical production; And finally, have the opportunity to present and share your work as a composer or performer to others.

For three weeks you will experience the joy of making music, creating compositions that express and communicate your ideas and feelings, learn to identify and solve problems, and apply your knowledge in individual and group practice.

The Music program consists of workshops such as:

- Classes of classical / modern instrumental performance
- Classic repertoire, pop, rock, jazz and Latin music
- Combs (musical combinations)
- Components and musical informatics
-

Dance Program:

Aims to learn to communicate through movement. The instrument will be the human body in its entire dimension. The dance does not pursue absolute truths or certain ways of doing, but it is you who must build your learning with the help of the teacher and your colleagues, making your expressive ability tune in with your own internal resources to make a clear and direct statement of what you are able to do, in short Create and Communicate Through bodily awareness.

For three weeks you will learn a language whose vocabulary is the interaction of the elements of dance, strength, time and space and whose expression is realized through individual and group improvisation.

The Dance program consists of workshops such as:

- Spanish dance
- Modern dance
- Urban Dance
- Tap Dance Claque

Dramatic Art Program

Will offer you many opportunities so you can practice communicating with different audiences and face a variety of purposes, such as stage movement, acting for the audience, writing sequences and representing them. Role play is a key component of the program. Putting yourself in the skin of another person or a character implies an act in which the imagination is of vital importance in the development of the capacity to understand others.

For three weeks you will live creating, improvising and interpreting through simulated characters and situations, understanding that there is a variety of points of view. You will have constant and conscious exploration of the "as if" in each of the imaginary roles and worlds.

The Dramatic Art program consists of workshops such as:

- Theatre in Spanish and English
- Performance Theatre
- Creation of scripts
- Musical Theatre

Visual and Visual Arts Program

It is based on the experience of describing, exploring and responding in practice the ability to express ideas, experiences and feelings. The program will give you different technical and creative experiences so that you can acquire a series of specific skills and knowledge.

For three weeks you will participate in making significant and open decisions that will allow you to express personal feelings, experiences and ideas to develop the necessary skills to use assertively the most appropriate materials and artistic techniques for your training level.

The Visual and Visual Arts program consists of workshops such as:

- Artistic drawing
- Outdoor Sculpture
- Graphic Design and illustration
- Photography and camera
- Urban art

Complementary Activities

They are carried out from 17:00 to 20:00 hours, with a more informal character, reinforce the main ones while the values are worked, capacities and competences are developed as teamwork, communication and leadership. The student should choose two complementary activities that will complete the itinerary of the program.

Languages: Specific classes of Spanish for foreigners or English for Spanish. Playful and dynamic sessions, you will learn the language while having fun.

Sports: You can also develop your sports skills in a safe and positive environment. Ping-pong, swimming, basketball, volleyball and soccer.

Appearance and Scenic Control: Your skills will be strengthened to perform in public, to have the appropriate appearance and to know how to communicate with the body, capacity to have good conversation skills, to debate and to dissuade.

Audiovisual Communication: An enriching technological itinerary that will expand your artistic skills through 3D animation, video game design, short films and robotics.

Sound Painting: You will boost the creation and improvisation with this sign language that is used for real-time composition with musicians, dancers, actors and visual artists.

Masterclasses

During the development of the program we will have the visit of personalities, consecrated and known professionals, active artists, each one expert in their artistic discipline, who will give lectures, presentations, talks and colloquiums to complete the program.
